Height	985 mm
Width	701 mm
Depth	688 mm

FEATURES & BENEFITS

Ultimate Two-In-One Convenience

Two-in-one convenience pairs with extra-large capacity. This connected Combination Washer Dryer cares for all fabrics thanks to specialised wash, dry or continuous cycles and advanced wash modifiers. This model is taller than usual washing machines but has a standard depth so it doesn't protrude into your laundry.

Large Capacity, Easy Loading

Designed for placement on the floor or at a convenient, low height, with the detergent dispenser on top for simple refilling. A 39% larger drum opening than other Haier front loaders makes loading and unloading even easier, while intuitive buttons and LED display on a dark glass control panel helps you select between wash and dry cycles even in dim light.

Refresh And Renew

Help to keep your clothes and linens fresh between washes using one of six convenient Refresh cycles. Ideal for lightly worn clothes or stored items, these cycles use steam to quickly and gently freshen garments and remove creases using minimal water and energy.

Hygienic Washing

The UV Protect modifier uses UV light to help kill bacteria at a low water temperature to be gentle on your clothes. Or choose the Sanitise function with one of eight continuous cycle options – washing and drying at a higher temperature to sanitise fabrics.

Smart Control

With the SmarthQ™ app and Wi-Fi connectivity, you're in control - anytime, anywhere. Start or stop your laundry cycles and get timely alerts on your smartphone once your washing is done. You can also access additional software updates as they're released.

Intelligent Washing

Simple and easy, Smart Dosing automatically delivers the correct amount of laundry detergent based on your load size and wash cycle. And with a larger 1.7L capacity detergent dispenser you'll need to refill it less often, for your convenience.

Smart Sensor-Dry

Auto-sensing technology is designed to sense how much moisture is in your laundry to avoid under or over drying. Full reverse tumble action helps to reduce tangling for a more even dry.
