10kg 500 Series Front Loader Washing Machine, Ultra Fresh Air

With the convenience of Ultra Fresh Air, designed to keep clothes fresh after washing, a 5-star energy rating and a roomy 10kg drum, this washer is built for busy modern homes.

- Ultra Fresh Air and Dual Spray to keep things fresh after a wash
- Large capacity drum fits a full basket of clothes or towels
- 14 specialist cycles, plus Stains and Soak wash options
- Smart Dosing and pre-mixing of detergent for cleaner clothes and less waste

DIMENSIONS

Height	**850 mm**
Width	**595 mm**
Depth	**593 mm**

FEATURES & BENEFITS

Lasting Freshness with Ultra Fresh Air

With Ultra Fresh Air, you don't have to wait around for a cycle to finish. Fresh air and clothes are circulated for up to 12 hours after a cycle - to help keep that 'just washed' feel. At the end of each wash, Dual Spray will rinse detergent away from the door and seal to help keep the machine clean and hygienic.

Built for Trusted Performance

Unlike a standard Inverter Drive, Haier's Direct Motion Motor attaches directly to the drum and operates without a belt. Engineered with fewer moving parts to reduce vibration, noise, energy consumption, and wear and tear, it is designed to deliver reliable performance for years to come.

5-star Energy Rating

How does this 5-star energy rated Front Loader Washer stack up? Compared to the 4-star 500 Series Front Loader Washers in our range, it's 27% - 33% energy savings*. Thanks to our latest intelligent technology and 10 kg drum, you can make a bigger impact on that washing pile, while being kinder to your pocket and the planet. *Compared to HWF85AN1 and HWF95AN1 with 4-star energy rating, tested according to Standard AS/NZS 2040.2 (Cotton cycle, 40˚C, 1400rpm, Detergent/Softener Off).

More Room, More Flexibility

Whether its a basket-full of clothes or a load of towels, the roomy 10kg capacity gives you space to stay on top of busy wash days. When you don't overload the drum, clothes wash faster and rinse better. Do fewer loads and spend less time thinking about the washing.

Smart Dosing for Easy Dispensing

What's the right amount of detergent? Smart Dosing sorts it for you by automatically measuring and dispensing the exact dose, while Essence Wash pre-mixes the detergent with water to improve wash performance. No mess, no waste, just washing results you'll love.

UV Protect for Added Hygiene

For extra peace of mind, the UV Protect wash option utilises UV light to help kill more than 99.99% of bacteria*. By using a low wash temperature it offers long-lasting fabric care for gym gear, baby clothes or bedding. *Independently tested to eliminate greater than 99.99% of staphylococcus aureus and E. coli using the Cotton cycle + UV Sanitise wash option.

Your Washing. Your Schedule

Short on time? Ultra Quick effectively washes a 5kg load (that's more than the average Kiwi household load) in under 30 minutes, while Speed Up puts the rockets on a regular cycle. Try Delay Start to time your wash to be done for when you get back home, or use Refresh with Steam to quickly reduce wrinkles and smells and get out the door sooner.

14 Cycles Designed for Real Life

Whatever your busy week has in store, you can handle it with 14 cycles, including a Woolmark Black certified cycle for machine-washable woollens. You can even manage those forgotten-sock dilemmas with Add a Garment.
