FEATURES & BENEFITS

Flexible cooking with dual Flexi Zones

With dual Flexi Zones; each one made by pairing single zones to make a large cook surface. Make gravy in a roasting dish, sear a large cut of meat or grill vegetables on a griddle – Flexi Zones give you even more cooking flexibility.

'Melt' for stable heat

This cooktop has advanced induction technology we call 'Melt', which provides a stable, even heat at low temperatures. Perfect for melting chocolate, softening butter and more.

Intuitive controls

With easy-to-use, multi-slider touch controls, choose from over nine heating settings - plus a boost function for versatile cooking and a child lock for added safety.

Hood to Hob compatibility

This cooktop features linked hood to hob capability, allowing you to pair it with a compatible Haier rangehood via Bluetooth. Once paired, the rangehood will seamlessly match the extraction rate to your cook zone power levels, so you always have the ideal extraction rate.

Easy cleaning

Cleaning is easy thanks to a cooktop that stays cool around your cookware, avoiding baked-on spills. A quick wipe after use will help to keep your cooktop looking pristine.

Matching design

The sleek black aesthetic of this cooktop matches the wider Haier family of appliances, pairing well with a black glass wall oven.
