## FEATURES & BENEFITS

**Flexible cooking with dual Flexi Zones**

With dual Flexi Zones; each one made by pairing single zones to make a large cook surface. Make gravy in a roasting dish, sear a large cut of meat or grill vegetables on a griddle – Flexi Zones give you even more cooking flexibility.

**'Melt' for stable heat**

This cooktop has advanced induction technology we call 'Melt', which provides a stable, even heat at low temperatures. Perfect for melting chocolate, softening butter and more.

**Intuitive controls**

With easy-to-use, multi-slider touch controls, choose from over nine heating settings - plus a boost function for versatile cooking and a child lock for added safety.

**Hood to Hob compatibility**

This cooktop features linked hood to hob capability, allowing you to pair it with a compatible Haier rangehood via Bluetooth. Once paired, the rangehood will seamlessly match the extraction rate to your cook zone power levels, so you always have the ideal extraction rate.

**Easy cleaning**

Cleaning is easy thanks to a cooktop that stays cool around your cookware, avoiding baked-on spills. A quick wipe after use will help to keep your cooktop looking pristine.

**Matching design**

The sleek black aesthetic of this cooktop matches the wider Haier family of appliances, pairing well with a black glass wall oven.
