Depth	**690 mm**

FEATURES & BENEFITS

Ultimate all-in-one convenience

Streamline your laundry care with our innovative combo machine, combining a spacious 12kg front loader washer with a 9kg heat pump dryer. Standing out in the Australasian market, this design not only ensures easy access with the intuitive LED control panel set at a convenient 1.45m, but also fits comfortably in compact spaces.

Easy access

Moving away from traditional stacked units that can be hard to reach at 1.7m, our Laundry Centre has a comfortable working height of 1.5m. Installation is hassle free, with just one plug, and one set of hoses. The dryer is positioned for easy drum access, while the detergent dispenser and doors can be opened with a gentle push — perfect when your hands are full.

Wash-to-dry with combi modifier

The Combi Modifier feature makes laundry easier. When you match washer and dryer cycles, it preheats the dryer drum during the last 15 minutes of washing. This smart feature ensures a quick switch from wash to dry, removing the need for separate programming.

Auto Dose and Eco wash

The washer's Auto Dose feature automatically uses the right amount of detergent depending on the wash cycle, optimising cleaning while reducing waste. Choose Eco Wash modifier with Care+ Durable cycle to cut energy usage by up to 94% and save over 27 litres of water.*
*Durable cycle is available for download through the SmartHQ™ app.

Quick wash options

The Speed Up function shortens most wash cycles, ideal for lightly-soiled clothes or when you're in a hurry. Choose the Express 15 cycle for one to two garments that need to be washed quickly.

Freshen with Steam

Freshen up clothes quickly with the dryer's dual Steam Deodorise and Refresh functions. Deodorise helps reduce odours, while Refresh uses steam to smooth wrinkles, so your clothes look and smell great.

Smart control

With the SmartHQ™ app and Wi-Fi connectivity, you're in control - anytime, anywhere. Start or stop your laundry cycles and get timely alerts on your smartphone once your washing is done. You can also access additional software updates as they are released.
