

12kg 500 Series Front Load Washing Machine, Ultra Fresh Air

With its spacious 12kg drum, 5-star energy and 5-star water ratings, plus 14 washing cycles, this roomy washer is built to keep up with your busy everyday life.

- Large 12kg capacity for big wash days, bulky bedding, and more
- Ultra Fresh Air and Dual Spray to help keep things fresh after a wash
- 14 specialist cycles, plus Stains and Soak wash options

- Smart Dosing and pre-mixing of detergent for cleaner clothes and less waste

DIMENSIONS

Height	850 mm
Width	595 mm
Depth	661 mm

FEATURES & BENEFITS

12kg Capacity, 5-Star Energy

Get on top of 'sheets day' and get on with real life with this spacious 12kg drum. Large washing piles disappear, and when you don't overload the drum, clothes can wash faster and rinse better. Plus, with 5-Star water and energy ratings, you can relax, knowing you're being kinder to your pocket and the planet.

Lasting Freshness with Ultra Fresh Air

With Ultra Fresh Air, you don't have to wait around for a cycle to finish. Fresh air and clothes are circulated for up to 12 hours after a cycle - to help keep that 'just washed' feel. At the end of each wash, Dual Spray will rinse detergent away from the door and seal to help keep the machine clean and hygienic.

Built for Trusted Performance

Unlike a standard Inverter Drive, Haier's Direct Motion Motor attaches directly to the drum and operates without a belt. Engineered with fewer moving parts to reduce vibration, noise, energy consumption, and wear and tear, it is designed to deliver reliable performance for years to come.

Smart Dosing for Easy Dispensing

What's the right amount of detergent? Smart Dosing sorts it for you by automatically measuring and dispensing the exact dose, while Essence Wash pre-mixes the detergent with water to improve wash performance. No mess, no waste, just washing results you'll love.

UV Protect for Added Hygiene

For extra peace of mind, the UV Protect wash option utilises UV light to help kill more than 99.99% of bacteria*. By using a low wash temperature it offers long-lasting fabric care for gym gear, baby clothes or bedding. *Independently tested to eliminate greater than 99.99% of staphylococcus aureus and E. coli using the Cotton cycle + UV Sanitise wash option.

Your Washing. Your Schedule

Short on time? Ultra Quick effectively washes a 5kg load (that's more than the average Kiwi household load) in under 30 minutes, while Speed Up puts the rockets on a regular cycle. Try Delay Start to time your wash to be done for when you get back home, or use Refresh with Steam to quickly reduce wrinkles and smells and get out the door sooner.

14 Cycles Designed for Real Life

Whatever your busy week has in store, you can handle it with 14 cycles, including a Woolmark Black certified cycle for machine-washable woollens. You can even manage those forgotten-sock dilemmas with Add a Garment.
