- Specialised UV Protect technology kills more than 99.99% of bacteria*

DIMENSIONS

Height	850 mm
Width	595 mm
Depth	679 mm

FEATURES & BENEFITS

Ultra Fresh Air

Designed to keep clothes fresh and the drum dry, Ultra Fresh Air technology draws fresh air into the machine after a wash. The air is gently circulated and released to help maintain a fresh washing environment.

Clean and Hygienic

UV Protect technology utilises UV light to help kill more than 99.99% of bacteria, and uses a low wash temperature for long-lasting fabric care.* Anti-Bacteria Treatment (ABT) in the gasket helps keep your laundry environment hygienic.

Smart Washing

Make laundry more efficient with Smart Dosing. This measures and dispenses the right amount of detergent and softener based on load weight. Plus, tackle stubborn stains with 12 dedicated options like Lipstick, Ink, or Oil for hassle-free cleaning.

Refresh Cycle with Steam

Ideal for items that need a quick freshen-up before wearing, the Steam Refresh cycle uses water plumbed into the machine to generate steam and refresh clothing.

Styled to Match

This Front Load Washing Machine has been designed to pair with our matching Heat Pump Dryer - with a sleek glass door, intuitive TFT display and drum light for convenient washing.

Design You Can Trust

Wash with confidence thanks to our Inverter Direct-Drive motor technology with an extended 10-year warranty, and Aqua Stop Inlet Hose to help detect leaks and prevent flooding.

Smart Control

With the SmartHQ™ app and Wi-Fi connectivity, you're in control - anytime, anywhere. Once connected, start or stop your laundry cycles and get timely alerts on your smartphone once your washing is done.
