- Advanced Anti-Bacterial Treatment (ABT) technology reduces bacteria* in the air

DIMENSIONS

Height	1775 mm
Width	908 mm
Depth	750 mm

FEATURES & BENEFITS

Switchzone™ Flexibility

When you need extra space, SwitchZone™ lets you change the bottom right compartment to fridge or freezer. Change it back just as easily, or select any temperature between -18°C to +5°C.

Even Cooling

Multi-Zone Air evenly circulates cool air to every corner of your fridge. By maintaining a stable temperature, this cooling system creates an ideal food storage environment, for lasting freshness.

Anti-Bacterial Treatment (ABT) protection

Air is circulated through an advanced ABT filter that kills up to 99.9% of bacteria,* helping to ensure a fresh and hygienic storage environment for your food.
*Independently tested to remove greater than 99.99% of Staphylococcus aureus, Escherichia coli, Listeria monocytogenes, Salmonella aertrycke, Shigella sonnet and Yersinia enterocolitica.

Ice And Water

The automatic ice maker delivers a constant supply of ice in your freezer, and a slimline door water dispenser provides fresh chilled water.

Wi-Fi Enabled

With Wi-Fi capability, you can easily control your fridge settings from anywhere using the SmartHQ™ app.

Lasting Freshness

Two Humidity Zone drawers offer ideal humidity-controlled conditions to store your fresh fruit and vegetables.

Flexible Storage

Cantilevered shelving in the fridge lets you easily adjust your storage space to suit your needs, with full back-panel LED lighting to provide a clear view of the whole interior.
